

FlexCam

by Ken-A-Vision

IDCam

910-171-125

The IDCam™ is ideal for capturing photo images used on student IDs, corporate security cards, membership cards and guest passes. The full-color, full-motion IDCam has a flexible 20" gooseneck and a 60 degree swivel head that allows it to be precisely positioned for proper head and shoulder framing at a distance of four to eight feet. The IDCam now offers higher resolution, with 410K pixels and more than 480 TV lines. Light sensitivity has also been increased to only 1.5 Lux, and the signal-to-noise ratio is greater than 48dB.

Additional Features and Benefits

- Built-in Microphone
- S-Video Connection
- Adjustable Brightness Control
- Flickerless Mode
